

New!

Coin & Card Parking Meters

City of Columbus is replacing its aging meters with units that accept debit and credit cards (VISA, MasterCard, Discover) as well as coins. The meters, pictured at left, are the same as units successfully tested and well received by the public on Gay Street in 2009.

About 1,000 of the City's 4,000+ meters will be replaced in January 2011, with the remaining planned for changeover in the next five years. The following areas will receive new meters in 2011:

- Gay Street between Front and Fourth
- Short North
- Grandview Avenue
- North Market
- Arena District
- Brewery District
